ATHLETE INSPIRED WORKER APPROVED

Athlete or worker – we see no difference. With the same dedication and focus, they work tirelessly, pushing the limits and seeking that extra bit of performance to always stay ahead of the competition. At Solid Gear, we carry that same mindset in everything we do – from research, to design and production.

THE FRONTRUNNERS

We make high-performance, zero-compromise, safety footwear that continuously raises the bar for the whole industry. Through progressive design, premium materials, and the latest technologies, our products are made to endure, keep workers safe, and enable them to perform at their peak for a long time to come.

OUR WORK STARTS WITH GETTING TO KNOW WORKERS.

We research how they move and listen to their opinions. This enables us to design safety footwear that continues to push the limits and let workers perform better.

ON THE LOOKOUT FOR THE NEXT BIG THING.

It's in our DNA to always search for cutting-edge materials and partner with front-running technology brands to make our products more sustainable, ergonomic, and safe.

LAB TESTED. REALITY CHECKED. CERTIFIED.

All our products are thoroughly tested in labs and real life to ensure the highest quality. We don't settle for anything less than exceeding safety and performance standards.

Venture 2

Solid Gear shoes are safe, comfortable and fast.
Made for performance with the latest technology
and trusted by craftsmen, industrial workers,
service personnel and heavy-duty doers.

Art: SG76012

DURABILITY AND LIGHTWEIGHT AND STYLE.
WITH BOA® PERFORMFIT™ WRAP AND REDESIGNED
UPPER FOR SECURE SUPPORT AND PERFECT FIT.

IMPROVED FIT MORE COMFORT INCREASED FLEX

VENTURE 2

S3S

Solid Gear reinvents the Venture style, in line with sustainable performance promise. Integrates the complete **ETPU** technology which provides cushioning and comfort for endless hours of walking while reducing pressure. The lightweight microfiber upper and the **MATRYX®** weave will wrap your foot for complete comfort and security, all while providing powerful movement. The newly introduced technology PerformFit™ Wrap powered by the **BOA® Fit System** ensures a locked in fit designed to provide maximum heel hold and support. Venture 2 is the gamechanger in terms of performance and sustainability, while not only focus on safety when concentrating technologies in the product. The specially developed high rebound **OrthoLite®** insole is mainly made of recycled materials. Breathable lining made of 100% recycled polyester. Backing, BOA® guides and soft nail protection are all partly recycled. **NANO** toe cap. **ESD** function according to EN IEC 61340-5-1:2016.

Upper: Microfiber
Lining: 100% recycled mesh
Outsole: Oil and slip resistant dual rubber
Midsole: ETPU
Footbed: PU foam with highly breathable recycled materials
Function: BOA® Fit System
Fit: Normal
Sizes: 36-48
Safety standard: EN ISO 20345:2022 S3S, SR, HRO, FO
Protection: NANO toe cap and soft nail protection

VENTURE 2

	<p>OrthoLite® Hybrid™ insole is lightweight and breathable, feature built-in moisture management, and is made from recycled materials.</p> 
<p>With micro-adjustable dial and wrap construction BOA® PerformFit™ Wrap provides fast, effortless fit with maximum heel hold. Easy on, easy off.</p> 	 <p>Soft and durable ETPU foam made from expanded TPU pellets deliver long-lasting and bouncy cushion.</p> 
<p>Oil and slip resistant lightweight dual rubber outsole.</p> 	

Revolution 2

MAX PERFORMANCE SAFETY SHOE FOR FAST WORK.
 DESIGNED WITH A STACK OF ETPU FOAM AND
 PERFORMANCE FIT FOR EVERLASTING COMFORT.

ATHLETIC FIT DURABLE COMFORT FULL PROTECTION

REVOLUTION 2

S3

Revolution 2 integrates the complete **ETPU** technology. The more energy you give, the more you get back. The shoe provides cushioning and comfort for endless hours of walking while reducing pressure. The lightweight **CORDURA®** ripstop and the stretch material provides an amazing feeling in terms of fitting and cushioning. By the end of the day you will have a completely different feeling in your feet and body, compared to using traditional safety shoes. To provide optimal protection without sacrificing comfort and sustainability, Revolution 2 uses the specially developed high rebound **OrthoLite®** insole mainly made of recycled materials. Revolution 2 will be the gamechanger in terms of cushioning and lightweight, while not only focus on safety when concentrating technologies in the product. **ESD** function according to EN IEC 61340-5-1:2016.

Upper:	Lightweight CORDURA® ripstop with TPU reinforcements
Lining:	Stretch and mesh
Outsole:	Oil and slip resistant dual rubber
Midsole:	ETPU
Footbed:	PU foam with highly breathable recycled materials
Function:	BOA® Fit System
Fit:	Normal
Sizes:	36-48
Safety standard:	EN ISO 20345:2011 S3, SRC, HRO
Protection:	NANO toe cap and soft nail protection

EN ISO 20345:2011 S3, SRC, HRO

REVOLUTION 2

Seamless **CORDURA**® ripstop upper for unparalleled durability and comfort.

Revolution 2 is built to deliver comfort and certified protection without limiting your mobility.

BOA Fit System® and an elasticised sock integrated into the upper keeps debris out and provides, glove-like, fit and feel.

Full **ETPU** midsole.

Super soft full-length **ETPU** midsole made from expanded TPU for durable cushion and comfort.

Oil and slip resistant lightweight dual rubber outsole.

Art: SG76010

REVOLUTION 2 GTX

S3

Revolution 2 GTX integrates the complete **ETPU** technology together with **GORE-TEX**. The shoe provides cushioning and comfort for endless hours of walking while reducing pressure. The lightweight **CORDURA** together with **GORE-TEX** Stretch Technology provides an amazing feeling in terms of fitting and breathability while keeping your foot dry. Comes with speed lacing as well as with normal laces, which enables you to customize to your preference. By the end of the day, you will have a completely different feeling in your feet and body, compared to using traditional safety shoes. Stabilizing heel counter made with collected ocean waste such as fish nets. To provide optimal protection without sacrificing comfort and sustainability, Revolution 2 GTX uses the specially developed high rebound **OrthoLite** insole mainly made of recycled materials. **ESD** function according to EN IEC 61340-5-1:2016.

Upper: Lightweight CORDURA® with TPU reinforcements
Lining: Stretch
Membrane: GORE-TEX
Outsole: Oil and slip resistant dual rubber
Midsole: ETPU
Footbed: PU foam with highly breathable recycled materials
Function: Speed lacing
Fit: Normal
Sizes: 36-48
Safety standard: EN ISO 20345:2011 S3, SRC, HRO, WR
Protection: NANO toe cap and soft nail protection

Art: SG76001

REVOLUTION

S3

Revolution from Solid Gear is exactly what we write – a revolution for safety shoes. By using the revolutionary technology **ETPU**, the midsole gives you endless cushioning and comfort. The more energy you give, the more you get back. Upper with stretch and **CORDURA** gives Revolution amazing properties when it comes to breathability, fit and flexibility. Solid Gear continues to provide users with the **NANO** toe cap, which is 40 % stronger than fiberglass as well as lighter and thinner than other non-metallic toe caps. Using PU foam Sock Technology, the comfort in this shoe is best in class, slip resistance class SRC ensures the highest level anti-slip. **ESD** function according to EN IEC 61340-5-1:2016.

Upper: Lightweight CORDURA® with TPU reinforcements
Outsole: Anti-slip and oil resistant rubber
Midsole 1: ETPU
Midsole 2: EVA
Footbed: Highly breathable, moisture wicking and PU foam
Fit: Normal
Sizes: 36-48
Safety standard: EN ISO 20345:2011 S3, SRC
Protection: NANO toe cap and soft nail protection

LIGHTWEIGHT SAFETY SHOE WITH SECURE SOCK-FIT, SOFT ETPU CUSHIONING AND, REINFORCED AIRY MATRYX® MESH UPPER FOR OUTSTANDING VENTILATION AND DURABILITY.

PRECISION FIT **BREATHABLE** DURABLE

VENT 2

S1P

Cushioned and comfortable shoe for endless hours of walking while reducing pressure from the complete **ETPU** midsole. The ultra light upper made with **MATRYX®** provides an amazing feeling in terms of fitting together with the **BOA® Fit System**. The textile is uniquely weaved for Vent 2, and the density of the weave varies on different parts of the shoe to optimize zones for ventilation, flex and durability with less lining. **MATRYX®** is also partly dope dyed, meaning significantly lower environmental impact compared to traditional textile. To provide optimal protection without sacrificing comfort and sustainability, Vent 2 uses the specially developed high rebound **OrthoLite®** insole. In addition, the backing is made with 70% recycled polyester and the lining is made with 100% recycled polyester. **ESD** function according to EN IEC 61340-5-1:2016.

Upper: MATRYX®
Lining: Mesh
Outsole: Oil and slip resistant dual rubber
Midsole: ETPU
Footbed: PU foam with highly breathable recycled materials
Function: BOA® Fit System
Fit: Normal
Sizes: 36-48
Safety standard: EN ISO 20345:2011 S1P, SRC, HRO
Protection: NANO toe cap and soft nail protection

VENT 2

With a sock-like fit, and **BOA® Fit System** this shoe cradles your foot for secure foothold and precise fit.

Airy **MATRYX®** upper reinforced with TPU yarn specifically designed to keep your feet cool and protected.

With soft durable **ETPU** midsole and almost weightless upper, Vent 2 prepares you for long days and fast work.

Full **ETPU** midsole.

Oil and slip resistant lightweight dual rubber outsole.

A SOFT, SUPREMELY COMFORTABLE
SAFETY SHOE WITH ALGAE-BASED MIDSOLE
AND RECYCLED PLASTICS IN HEEL COUNTER.

WOMEN'S FIT RECYCLED MATERIALS SOFT CUSHIONING

HAZE TELLUS

S1P

The immensely popular Solid Gear Haze has now been developed to fit a woman foot in a new way. Solid Gear has designed a new last for this purpose solely. Furthermore, a unique sustainable **Bloom** EVA midsole takes comfort to the next level for an athletic safety shoe. The **StarKnit** upper without seams gives the Haze Tellus fantastic breathability, also an excellent combination with the **BOA® Fit System** for fit and flexibility. Haze Tellus uses the specially developed high rebound **OrthoLite®** insole mainly made of recycled materials.

Upper:	Lightweight seamless StarKnit with maximum breathability
Lining:	Mesh
Outsole:	Oil and slip resistant rubber
Midsole:	Bloom EVA
Footbed:	PU foam with highly breathable recycled materials
Function:	BOA® Fit System
Fit:	Women last
Sizes:	35-42
Safety standard:	EN ISO 20345:2011 S1P, SRC
Protection:	NANO toe cap and soft nail protection

SEA

S3

Sea creates a superior combination between stability and cushioning. This result is reached by a durable leather upper with a new insole board construction and a high cushioning poured PU midsole. In addition, this comfortable shoe offers great grip thanks to the pattern and compound on the rubber outsole. Solid Gear Sea also provides great ergonomics and stability with the same rebound feeling as a sport shoe. Non-metallic toe cap and nail protection. **ESD** function according to EN IEC 61340-5-1:2016.

Upper: Leather certified by LWG
Lining: Mesh
Outsole: Oil and slip resistant rubber
Midsole: Poured PU
Footbed: Highly breathable PU foam
Fit: Wide
Sizes: 35-48
Safety standard: EN ISO 20345:2011 S3, SRC, HRO
Protection: Fiberglass toe cap and soft nail protection

Art: SG61002

NAUTILUS

S3

Nautilus creates a superior combination between stability and cushioning. This result is reached by a durable leather upper with a new insole board construction and a high cushioning poured PU midsole. In addition, this comfortable shoe offers great grip thanks to the pattern and compound on the rubber outsole. Nautilus also provides great ergonomics and stability with the same rebound feeling as a sport shoe. Non-metallic protection in toe cap and penetration board. **BOA® Fit System** with flap construction for easy closure and instep. **ESD** function according to EN IEC 61340-5-1:2016.

Upper: Leather certified by LWG
Lining: Mesh
Outsole: Oil and slip resistant rubber
Midsole: Poured PU
Footbed: Highly breathable PU foam
Function: BOA® Fit System
Fit: Wide
Sizes: 35-48
Safety standard: EN ISO 20345:2011 S3, SRC, HRO
Protection: Fiberglass toe cap and soft nail protection

Art: SG61001

OCEAN

S1P

Solid Gear Ocean, where durability meets lightness, comfort and flexibility. Introducing the pouring polyurethane technology in midsoles, together with a thin rubber outsole, results in a very lightweight and durable safety shoe. Upper with shell functionality creates a durable and smooth product without unnecessary stitching. The **BOA® Fit System** provides a perfect fit and allows for a fast and effortless entry and exit. **ESD** function according to EN IEC 61340-5-1:2016.

Upper: LWG leather
Outsole: Anti-slip and oil resistant rubber
Midsole: Poured PU
Footbed: Highly breathable, moisture wicking and PU foam
Function: BOA® Fit System
Fit: Wide
Sizes: 36-48
Safety standard: EN ISO 20345:2011 S1P, SRC, HRO
Protection: Fiberglass toe cap and soft nail protection

Art: SG61003

ATLANTIC

S1P

Solid Gear Atlantic, where durability meets lightness, comfort and flexibility. Introducing the pouring polyurethane technology in midsoles coupled with a thin rubber outsole for an extremely lightweight and durable outcome. Durable upper and smooth design creates a product without unnecessary stitching. The **BOA® Fit System** provides a perfect fit and allows for a fast and effortless entry and exit. **ESD** function according to EN IEC 61340-5-1:2016.

Upper: LWG leather with TPU reinforcements
Outsole: Anti-slip and oil resistant rubber
Midsole: Poured PU
Footbed: Highly breathable, moisture wicking and PU foam
Function: BOA® Fit System
Fit: Wide
Sizes: 36-48
Safety standard: EN ISO 20345:2011 S1P, SRC, HRO
Protection: Fiberglass toe cap and soft nail protection

Art: SG61013

STREAM

S1PS

Stream is a ventilated lowcut shoe with a number of high performance features. An athletic feeling thanks to a high cushioning poured PU midsole together with great grip from the pattern and compound on the rubber outsole. The upper is designed with lightweight textile and a large TPU reinforced window of polyamide net, for maximum ventilation. Breathable lining made of 100% recycled polyester. Stream uses the specially developed high rebound **OrthoLite®** insole mainly made of recycled materials. Increased stability and rigidity from the insole board and the shank. Fiberglass toe cap and soft nail protection made with recycled polyester. **ESD** function according to EN IEC 61340-5-1:2016.

Upper: Textile
Lining: 100% recycled mesh
Outsole: Oil and slip resistant rubber
Midsole: Poured PU
Footbed: PU foam with highly breathable recycled materials
Fit: Wide
Sizes: 35-48
Safety standard: EN ISO 20345:2022 S1PS, SR, HRO, FO
Protection: Fiberglass toe cap and recycled soft nail protection

Art: Talus GTX Low SG61012

Art: Talus GTX Mid SG61011

TALUS GTX LOW / TALUS GTX MID

S3

Talus GTX Low and Mid are discreet shoes, but still stacked with a number of high performance features. An athletic feeling thanks to a high cushioning poured PU midsole together with great grip from the pattern and compound on the rubber outsole. The upper is designed with durable leather from **LWG** combined with lightweight microfiber. Membrane from **GORE-TEX** ensures high breathability while preventing water from getting inside the shoe. Speed lacing for stepping in and out the shoe quickly. For the user who prefers traditional lacing and even more discreteness, the speed lacing can be switched with the complimentary black laces. Fiberglass toe cap and soft nail protection. **ESD** function according to EN IEC 61340-5-1:2016.

Upper: Leather certified by LWG and microfiber
Lining: Mesh
Membrane: GORE-TEX
Outsole: Oil and slip resistant rubber
Midsole: Poured PU
Footbed: Highly breathable PU foam
Function: Speed lacing
Fit: Wide
Sizes: 35-48
Safety standard: EN ISO 20345:2011 S3, SRC, HRO, WR
Protection: Fiberglass toe cap and soft nail protection

Prime GTX Mid

RELIABLE AND COMFORTABLE ALL-TERRAIN
 SAFETY SHOES FOR STABILITY AND GRIP DURING
 OUTDOOR WORK.

TRUSTED TRACTION **STABILITY** WATERPROOF

PRIME GTX LOW / PRIME GTX MID

S3

Solid Gear's most popular sole of all times is now available with lightweight full **ETPU** in the middle part. Suitable for the user who prioritize top comfort and stability, can now also enjoy the top performing ETPU which lasts over time. The rubber outsole from **Vibram®** is still very durable with good anti-slip properties. The torsional rigidity of the shoe comes from the dual TPU shanks and adds to the ergonomic. The durable microfiber upper with **GORE-TEX** membrane ensures waterproofness, while maintaining good breathability. The newly designed snug fit ergonomic tongue with GORE-TEX Stretch Technology in the upper, together with a high heel counter and **BOA® Fit System**, makes this shoe truly unique when it comes to fit for the user. **ESD** function according to EN IEC 61340-5-1:2016.

Upper:	Microfiber
Membrane:	GORE-TEX
Outsole:	Oil resistant and anti-slip Vibram® rubber
Midsole:	ETPU
Footbed:	PU foam with highly breathable recycled materials
Function:	BOA® Fit System
Fit:	Wide
Sizes:	36-48

Lightweight **Michelin**® rubber outsole for maximum grip on a myriad of surfaces.

Art: SG30001

Exceptional woven texture and thicker material at the toes, instep and heel provides shock absorption. A comfortable cuff keeps Solid Gear Compression Sock steadily in place just below the knee. Graduated compression and ventilation increases your performance. Tight fit around the ankle and calf. Flat unnoticeable seam in the toe to provide the highest comfort. Solid Gear Compression Sock improves blood circulation, shortens the time that your muscles need to recover from working or training sessions and provides comfortable support for long hikes.

Material: 93% Nylon
7% Elastane

Sizes: 35-38, 39-42, 43-46, 47-49

COMPRESSION SOCK

Art: SG30002

Heavy Thermo Winter is a warm winter sock in Merino Wool. Merino Wool is a natural moisture carrier, which keeps you dry and comfortably warm in any weather. Solid Gear Heavy Thermo Winter is reinforced in the heel and toe to increase wear resistance. Merino Wool allows the sock to dry quickly, eliminates odor and itch.

Material: 54% Merino wool
44% Polyamid Nylon
2% Elastane

Sizes: 35-38, 39-42, 43-46, 47-49

HEAVY THERMO WINTER

Art: SG30004

Active sock 3-pack is a sock with extra cushioning in heel and toe. The sock is knitted in the highest quality and has an ergonomic fit with moisture and odor repelling material. Add to that, the sock is very soft and flexible, which helps prevent blisters, sores and calluses.

Material: 46% Cotton
38% Nylon
14% Polypropylene
2% Elastane

Sizes: 35-38, 39-42, 43-46, 47-49

ACTIVE SOCK 3-PACK

Art: SG30005

Performance Winter 2-pack is a soft and warm sock for really cold winter days. It is made of Merino Wool and provided with a thicker bottom, which gives great insulation and comfort. The sock is also reinforced in the shaft for extra protection when wearing high winter boots.

Material: 33% Merino wool
33% Acrylic
34% Polyamide

Sizes: 35-38, 39-42, 43-46, 47-49

PERFORMANCE WINTER 2-PACK

Art: SG30007

Ultra Thin Wool is a sock that is designed to provide maximum breathability. Supporting the Achilles tendon and ventilation zones on upper foot makes them really comfortable. The seamless toe reduces the risk of chafing and the thin cushion underneath provides comfortable cushioning.

Material: 51% Nylon
47% Merino wool
2% Elastane

Sizes: 35-38, 39-42, 43-46, 47-49

ULTRA THIN WOOL SOCK

Art: SG30008

Extreme Performance Summer is according to us the ultimate summer sock. We have combined the best materials with the latest and most advanced technology in sock manufacturing. Adapted from the right and left foot for a perfect fit. The sock has a seamless toe for optimal fit and breathable zones. This is a sock that needs to be experienced.

Material: 48% Coolmax
38% Nylon
10% Nanoglide
2% Copper
2% Elastane

Sizes: 35-38, 39-42, 43-46, 47-49

EXTREME PERFORMANCE SUMMER

Art: SG30012

Technical mid sock made with recycled polyamide yarn. The bottom of the sock contains threads with carbon fiber, especially suited for footwear from Solid Gear with **ESD** function. Reinforced in heel and toe area. Very breathable.

Material: 55% Polyamide
40% Recycled polyamide
3% Elastane
2% Carbon fiber

Sizes: 35-38, 39-42, 43-46, 47-49

ESD SOCK MID

Art: SG30013

Make sure that your feet enjoy the full comfort experience when wearing footwear from Solid Gear, and not be limited by bad socks. The Combo Wool Mid sock is very technical and combines Merino wool and polyamide, which has excellent properties in terms of transporting moisture. This maximum breathability should be combined with Solid Gear shoes and boots with **GORE-TEX**. The sock is also extra reinforced underneath, heel and toes, and on the tibia, which are the main contact areas and are also being torn the most in shoes or boots.

Material: 52% Polyamide
46% Merino wool
2% Elastane

Sizes: 35-38, 39-42, 43-46, 47-49

COMBO WOOL SOCK MID

Art: SG30014

Make sure that your feet enjoy the full comfort experience when wearing footwear from Solid Gear, and not be limited by bad socks. The Wicking Sock Mid has a slim design that feels great on your foot. Partly made with recycled and bio-based Phoenix polyamide yarn, which has very good properties in terms of transporting moisture. This superior breathability should be combined with Solid Gear shoes and boots with **GORE-TEX**. The sock is also extra reinforced underneath, heel and toes, and on the tibia, which are the main contact areas and are also being torn the most in shoes or boots.

Material: 68% Polyamide
29% Recycled polyamide
3% Elastane

Sizes: 35-38, 39-42, 43-46, 47-49

WICKING SOCK MID

Art: Light Performance Sock Low
2-pack Black **SG30016**

Art: Light Performance Sock Low
2-pack Green **SG30017**

Low and sporty. This thin and lightweight sock is made with the recycled and bio-based Phoenix polyamide yarn. Maximized ventilation as well as reinforced in toe and heel area. Looks and feels great together with knitted low shoes from Solid Gear. 2-pack.

Material: 54% Polyamide
43% Recycled polyamide
3% Elastane

Sizes: 35–38, 39–42, 43–46, 47–49

LIGHT PERFORMANCE SOCK LOW 2-PACK **BLACK / GREEN**

SmellWell Active WFP

Art: SG20032

The Solid Gear branded **SmellWell** freshener inserts have a natural 3-in-1 solution that effectively absorbs moisture, removes odors, and leaves a long-lasting fresh scent. Just throw them in your shoes and experience a real difference!

One box includes two freshener inserts.

SMELLWELL ACTIVE WFP

Art: SG10101

Soft and comfortable slide.

Sole: EVA
Function: Adjustable velcro
Sizes: 36-47

SLIDE MOON

Art: OrthoLite Hybrid Insole **SG21002**
Art: OrthoLite Hybrid Insole Wide **SG21009**

Solid Gear and **OrthoLite® Hybrid™** comes with an unprecedented share of eco-content in an insole. The pending patent formulation uniquely blends recycled rubber and production waste foam, which gives a total of 40% eco-content for uncompromised performance with less impact on the planet. This insole comes as standard in selected Solid Gear styles, depending on last widths. After continues use for six months, we recommend that you switch the original insole to a new fresh one certified with Solid Gear. Also suitable for shoes with **ESD** function.

OrthoLite
Hybrid™

TECHNOLOGIES

We use modern high-tech technologies to make safety shoes that are light and comfortable. State-of-the-art materials and new technical fibers make it possible to move from the traditional heavy safety boot to lightweight athletic safety shoes.

BOA® FIT SYSTEM

With micro-adjustable dial and a super-strong lightweight lace the BOA® Fit System delivers micro-adjustable precision fit, engineered to perform in the toughest conditions.

ETPU

Soft and durable ETPU foam made from expanded TPU deliver long-lasting comfort, energy-return and bouncy cushion.

BLOOM

Algae-based pellets that are used to make a more sustainable EVA foam for applications that require high rebound rates – such as cushy soles for the footwear industry. Made by Algix.

CORDURA®

CORDURA® is a highly durable and hard-wearing fabric with an effective feature allowing feet to breathe.

LWG

Leather Working Group is an international, not-for-profit membership organisation and responsible for the world's largest leather sustainability program. LWG aims to improve the environmental impact of the leather industry by assessing and certifying leather manufacturers.

GORE-TEX

The GORE-TEX membrane is comprised of billions upon billions of small holes that are 20,000 times smaller than a water droplet, but 700 times larger than a water molecule. This lets water vapor escape but keeps water droplets out – making it fully windproof, waterproof, and at the same time breathable.

MATRYX®

Exceptionally breathable and strong upper material weaved from aramid fibers and individually coated polyamide yarns. Provides long-lasting protection, flexible support, and abrasion resistance.

STARKNIT

Solid Gear StarKnit is an upper constructed as one solid piece. Polyester yarn is knitted together in a precise and detailed process that provides a feather light, glove like fit without any seams. Because of its ability to vary in thickness across the upper, the StarKnit is called a smart construction. The knit is adjusted depending on what function it needs to fill, being thicker in areas where you need more protection and lighter where you need higher breathability and flexibility.

NANOTOE

NANO Carbon composite material is 40% stronger than regular fiberglass. Thinner wall design provides more room for better comfort. Meet all international standards, including ASTM, CSA, EN 125685. It's the first pair of safety toe cap made of NANO carbon technology in the world. Bring your shoes excellent comfort, light weight, and strong protection, with the most innovative technology.

FIBERGLASS TOE CAP

Our fiberglass toe cap is lighter and safer than traditional toe caps. In addition, it features a multilayer technology which creates a roomier toe box and a sporty appearance. Fiberglass is a non-conductive and metal free material. CE Fiberglass toe cap is certified to withstand the EU standard safety regulation.

MICHELIN®

Snowstorms, wet streets, icy concrete – wherever work takes you, Michelin® outsole is both super grippy and extra durable. Inspired by MTB tires, the innovative lug designs grabs the ground and multidirectional patterns help shed water and snow for secure contact with the ground.

VIBRAM®

Vibram® is an extra durable and rugged sole designed to provide an extremely strong grip on uneven surfaces. Vibram® outsoles comes in both rubber and TPU where the rubber outsole is heat-resistant and can withstand temperatures of up to 300°C.

ORTHOLITE® HYBRID™

OrthoLite® foam insoles are lightweight and breathable and feature built-in moisture management and are made from recycled materials.

FLEX-SYSTEM

FLEX-SYSTEM is designed to work with the biomechanical functions in our foot. The System is supporting our natural movement, providing stability and support and it distributes pressure to the ergonomic zones and help the foot flex efficiently.

ESD

ESD protection ensures that static electricity is discharged. The shoes have a resistance ranging between 0,1 Mohm and 100 MOhm according to BS ISO IEC 61340-4-3:2018.
